

“ DGA 2025

immediate anticipation is an ambitious and realistic transformation plan.

It requires a long-term vision and an ability to act immediately.

My aim is to bring aboard now all stakeholders: the armed forces, the industry, the DGA and the younger generations who will join us.”

Laurent Collet-Billon,  
Chief executive of the DGA

REPORT  
2015

» BUILDING THE DEFENCE  
OF TOMORROW TOGETHER

A transformation plan built  
around 4 dimensions

Increasing exports:  
thanks to a team France  
with DGA  
as the key representative  
for the Ministry of defence

INTERNATIONAL

CAPACITIES

Optimize Defence tool:  
A new capability-driven  
approach shared by the DGA  
and the Forces: thinking  
upstream and global before  
thinking local and programme

Foster French innovation:  
The DGA as a driving force  
for the industry as well as for  
civilian and military research

INNOVATION

DIGITAL

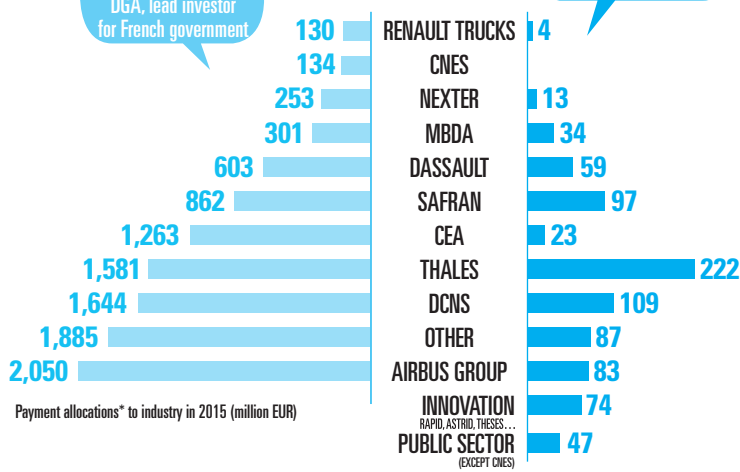

Ensuring control  
of the digital environment:  
Collaborative work between  
the DGA & industrial  
and state partners showing  
the way to a DGA 5.0

# FOSTER INVESTMENT

Key 2015 figures
