1. Recognition, in this case, is of an Authority by another Authority. To achieve the goal of regulating once and using the outcome many times, the recognition process guidelines detailed in EMAD R have been followed and confidence has been gained that FIMAA's airworthiness assurance and regulatory approach is acceptable to DSAÉ.
2. FIMAA's conduct of regulatory assurance is assessed as being at a standard by which the continuing airworthiness artefacts can be accepted by DSAÉ. Indeed, approvals of maintenance organisations delivered by FIMAA can be accepted by the DSAE. Audits and surveillance for the approvals of maintenance and training organisations may be conducted jointly.
3. This Recognition Certificate is valid **4 years** from the date of signature mentioned on the cover page of the present document.
4. This Recognition Certificate will be reviewed for the first time at least 6 months before the end date of its validity unless any significant changes (Step 18 of EMAD R refers) to the Authorities occurs before that date.
5. FIMAA undertakes to inform DSAÉ immediately of any significant changes in accordance with Step 18 of EMAD R.
6. FIMAA, on request and where release is permissible, undertakes to supply approval certificates, audit reports, supporting documents, findings and subsequent closure action to DSAÉ in English for all initial approvals and on-going surveillance activity for approvals, accepted/to be accepted by DSAÉ.
7. FIMAA undertakes to inform DSAÉ in a timely manner of any concerns they may have relating to the performance of a maintenance or training organization, the approvals of which has been adopted by DSAÉ.
8. The essential principle that recognition is a national responsibility is maintained, hence sovereign regulatory responsibility is not abdicated by issuance of this certificate.
9. The Recognition Partners' signatories below are duly authorised to make the agreements given above.
